General In all cases of doubt, or when symptoms persist, seek medical attention.

Never give anything by mouth to an unconscious person.

Inhalation Remove the person to fresh air. Get medical attention if irritation or discomfort persists. **Eyes**

Irrigate copiously with clean water for at least 15 minutes, holding the eyelids apart and

seek medical attention.

Skin No hazards which require special first aid measures.

The product is not considered toxic based on studies on laboratory animals. Ingestion

4.2. Most important symptoms and effects, both acute and delayed

Overview Potential Acute Health Effects: Inhalation of heavy concentrations may cause mild irritation

of upper respiratory tract and lungs.

Target Organs: Eyes, lungs

Potential Chronic Health Effects: Inhaling over long periods of high amounts of any nuisance

dust may overload lung clearance mechanism and make lungs more vulnerable to
