

Retail Store Program Guide

A comprehensive guide to Spill Hero's solutions
for slip and falls in retail stores of all sizes.

www.spillhero.com

Let's take a walk...

We want to know everything. Our virtual store walks allow you as a Safety Professional to show us the ins and outs of your stores.

- Take a virtual store walk using teleconferencing.
- We take a look at your floors, drains, warehouses and any other trouble spots.
- Invite your employees to share their spill clean-up questions and concerns.

During store walks, teach your employees to observe:

- Aisles with the highest rate of spills.
- Items that spill most often.
- Which items cause the highest incidence of slip and falls.

“But we already have an absorbent spill program. How is the Spill Hero Program any different?”

While both programs may appear similar, there are some very big differences.

1. **More Absorbent:** 1 ½ lb of Spill Hero Super Absorbent absorbs 5 liters of liquid. The competition only absorbs 4 liters and may require using two applications per clean-up.*
2. **Ease of Cleanup:** Spill Hero does not become gooey or gummy, creating a bigger mess requiring additional absorbent, time, and money.
3. **Truly Eco-friendly:** Spill Hero doesn't believe in green-washing. Our products are Ecologo® Certified, landfill accepted, and won't leach.
4. **Designed to Match Your Needs:** “One size fits all” should not apply to your spill program. Your customized Spill Hero program provides **ONLY** the tools needed to clean-up the type of spills your stores encounter effectively. Don't overpay for unused tools like broom heads and dustpans.

*Product usage reduced up to 25%, based on retailers switching from competitors 3 lb absorbent bottle to Spill Hero's 6 quart bag or 5.4 quart bottle.

SPILL HERO HAND CADDY

This grab-and-go Spill Hero Hand Caddy includes everything needed to clean any type of spill your store may see, such as soda, honey, syrup, bleach, fabric softener and detergent. Each Hand Caddy also serves as a "CAUTION" to shoppers that a spill clean up is in progress.

Contents: Spill Hero 2L Bag (2), Spill Hero Pads (25), Dustpan with brush set (1), Disposal bag (1), Biohazard Response Kit (1)

Spill Response On Your Scale

Small Format Stores may see most spills coming from customers bringing in outside food and drinks. They may have some retail items that can break or spill, but enough that they see between 1-5 spills per week. Stores will be between 1000 - 10,000 sq feet.

"Stores are legally obligated to maintain reasonably safe premises for...their customers. When a slip and fall accident happens at a department store, grocery store, or even a local "mom and pop", the business may be liable for injuries if it can be shown that the slip and fall occurred due to unsafe conditions on the property." (AllLaw.com)

SKU# XKUE

SPILL HERO MINI-KIT

This Grab-&-Go Kit includes everything needed to clean up a spill up to 1.15 gallons (150 oz) of liquid. Solidify liquids and sweep away glass and debris with one easy to use kit.

Contents: 2 oz Bag XSORB Plus (1), Spill Hero Pads 6.75x7 (8), Finishing Wet Wipe (1), Mini dustpan and brush (1), Disposal bag (1), Pair Gloves (1), Face Mask (1)

SKU# PQHPPM

SPILL HERO FLOOR SAFETY PADS

Get peace of mind with our easy, fast and simple Floor Safety Pads. Carry these in your pocket or apron for the quick clean-up of liquid spills. Our Floor Safety Pads absorb up to 16 ounces of liquid in seconds, leaving your floors clean, dry, and slick-free.

Available in bulk boxes or convenient register packs

SKU# W412

Spill Hero Spill Stations can be mounted nearly anywhere, allowing you to target spill-prone areas. This convenient Spill Station holds all you need to clean up spills quickly.

Many configurations available.

Contents may include: Spill Hero bottles or bags, dustpan and brush set, long-handled broom, squeegee broom, safety cone, disposal bags and more!

SKU# STBK107

SPILL HERO BLOOD & BODY FLUID KITS

Spill Hero Blood & Body Fluid Kits have been designed to meet the EPA's standards for "small waste generators" in line with Part 261 of title 40 of the Code of Federal Regulations (CFR). Each kit includes a clear disposal bag as opposed to red biohazard bag; removing disposal confusion and accidental fines. All Kits are made to provide protection against all types of bodily fluid spills.

Contents: XSORB Plus w/ Disinfectant (1), Dust mask with eye shield (1), Gloves (2), Sanitizing Wipe (2), Antimicrobial Wipe (2), Scraper Set (1), Paper Towel (2), Clear Disposal bag (1), Cable Tie (1)

Medium Format Stores may see spills from customers bringing in outside food and drinks, but they also carry a moderate number of liquid-based items that can break or spill causing slip & falls. Spills average between 5-10 per day. Stores will be between 11,000-50,000 sq feet.

“Many slip and fall accidents are preventable. If businesses and individuals take the time to keep their property safe for customers, vendors and employees, they can prevent many slip and fall accidents before they ever occur” (NFSI)

Spill Response for Every Situation

Step into a Larger Format Store and you'll be greeted with a vast array of products, including liquid-based items that could easily spill. But that's not all - customers often bring in their own snacks and drinks, adding to the potential for dangerous spills. With an average of 11-20 spills per day, these stores, spanning over 50,000 square feet, are a hub of activity, with massive spill potential.

"Slip and fall accidents cost Americans more than \$34B each year. In fact, medical bills are a leading cause of bankruptcy." (NFSI)

XSORB ACID NEUTRALIZER

Spill Hero Acid Neutralizing Absorbent is a unique blend of sodium carbonate and Spill Hero Super Absorbent and has been specifically formulated for safe and effective control of acid spills. Spill Hero encapsulates acid spills quickly, neutralizing acid and reducing emission of toxic fumes.

Spill Hero is ideal for absorbing spills that contain chemicals such as chlorine, sulfuric and battery acid. Once absorbed, it will not leach the toxic liquids and cause harm to the environment. Spill Hero meets or exceeds all governmental regulations for proper landfill disposal.

*Not for use with hydrofluoric acid.

“Slip and fall accidents cost Americans more than \$34 billion each year. In fact, medical bills are a leading cause of bankruptcy.” (NFSI)

TRUCK & VEHICLE SPILL KIT

The DOT and EPA have regulations that require you to be equipped if you have a leak or spill. Comply with current BMP regulations that protect our environment with the Vehicle Spill Kit.

Each kit will absorb up to 9.4 gallons and fits conveniently under or behind a seat. In addition, this kit contains one 10 oz. jar of PND for sealing off gasoline, diesel, solvents and other chemicals. PND seals immediately and sticks to dirty, crumpled surfaces even with the fluid flowing out. No surface preparation is required.

SKU# RPKBU300

At the end of a Spill Hero Pilot Program, you'll be able to make these 10 statements:

1. We've taken steps to create a safe environment for our customers and employees to both work and shop.
2. We've taken reasonable precautions to prevent slip and falls due to spills and wet floors.
3. We prevented accidents by getting spills off the floor as quickly and effectively as possible, preventing injury.
4. We reduced our liability by taking reasonable steps to prevent slip and falls.
5. Our employees love how easy this program is to use!
6. Our team has learned to use the program correctly to clean-up spills.
7. We've used videos, wall-charts and other methods to train our employees.
8. We feel the Spill Hero - Spill Management Program has provided an extra safety measure to protect our team and customers.
9. We believe this could provide a 15% potential reduction in slip and falls claims over the next 6 months.*
10. The Spill Hero - Spill Management Program is a great way to help us meet our goal to reduce slip and falls.

And you too will be a Spill Hero!
